2001 – 2002

Beaker Tools is a kan ban service provider

WELCOME

To the 2001 - 2002 Beaker Tools catalogue. We hope that you find this catalogue a useful resource when it comes to your tooling and consumable supply requirements.

BEAKER TOOLS was established in 1995 to supply Leicestershire's engineering companies with quality tools and consumables at competitive prices.

As a subsidiary of BRITTEN ENGINEERING Ltd. we understand the type and quality of goods engineers require, and more importantly, we pride ourselves on delivering the levels of customer service you need.

As a result we have seen an expansion in our customer base, both geographically and in the type of industries we supply. We now deliver goods countrywide, to companies such as Caterpillar UK and British Telecom - Marconi, while also serving the needs of our local customers.

All our services are backed by an experienced management team, ready to work with your purchasing department to help improve your company's performance.

WHAT MAKES BEAKER TOOLS YOUR COMPLETE SUPPLY SOLUTION ?

● OUR ASSURANCE OF QUALITY

We make every effort to provide goods of the highest quality subject to your company's requirements.

● OUR COMPETITIVE PRICE SYSTEM

We balance the provision of best quality goods with prices that are as low as possible.

● OUR ASSURANCE OF A RELIABLE SERVICE

We know how busy your company can be, and make every effort to provide the goods you want, when you want them.

● OUR EXTENSIVE RANGE OF PRODUCTS

We currently hold nearly 4,000 items in stock to enable prompt delivery of the goods you need.

● OUR NETWORK OF SUPPLIERS

We have accounts with nearly 400 suppliers to get you the goods you are used to, of the quality you require. We can also source goods from specific suppliers at your request.

● THE REVOLUTIONARY KAN BAN SUPPLY SYSTEM

We provide a highly cost effective KAN BAN service which can be tailored to your company's individual needs. For more information see section 2.

● OUR KNOWLEDGE OF THE ENGINEERING TRADE

We have staff on hand with extensive working knowledge of the engineering trade, who can advise you on which products are best for you and the job you require them for.

● OUR PARENT COMPANY'S FACILITIES

Our parent company BRITTEN ENGINEERING Ltd. offers precision machining, small fabrications and paint finishing services. For more information see section 1.

● YOUR GUARANTEE OF OUR PERSONAL ATTENTION

You are assured of our personal attention at all times. Your order will be dealt with by one person from start to finish, which allows us to update you on its progress if you so wish.

**HOW CAN YOU TAKE ADVANTAGE OF
THE BEAKER TOOLS COMPLETE
SUPPLY SOLUTION ?**

This brochure contains examples of the products we supply. It is by no means exhaustive, and we are always pleased to help you source any consumable or tooling requirements.

If you are interested in any of our goods or services, or would like to make an order, please contact Mike or Matty who will be pleased to take care of your enquiry. For account information ask for Philippa :

SECTION 1: SERVICES

● **Beaker Kan Ban** **page 8**

Beaker Tools believes the future purchasing of consumables and tools lies with a Kan Ban stores and logistics control system.

● **Machining** **page 10**

Sub contract machining - design and development by Britten Engineering Ltd.

SECTION 2 : PRODUCTS

● **Consumables** **page 11**

Abrasives, Adhesives, Batteries and power packs, Cleaning aids, Coolants, Cutting compounds, Cutting discs, Degreasers, Grinding discs, Lubricants, Marker pens, Paints, Protective wear / Safety shoes, Retainers, Sanding discs, Saw blades, Sealants, Tape, Welding consumables.

● **Hand tools** **page 14**

Axes, Carpenters tools, Crimping tools, Crowbars, Cutters, Deburring tools, Driver bits, Files, Hammers and Mallets, Hex wrenches, Knives, Molgrips, Pliers, Punches, Saws, Scissors, Scrapers, Screwdrivers, Sockets, Spanners, Stamps, Tap and die holders, Tool holders, Tube and pipe benders, Wire brushes, Wire strippers, Wrenches.

● **Power tools** **page 19**

110 and 240V Power tools, Air tools, Accessories, Cordless tools, Spare parts.

SECTION 2 : PRODUCTS

- **Engineering tools and equipment** **page 20**
Assembly tools, Clamps, Dismantling tools, Drill chucks, Grinding wheels, Inspection tools and Gauges, Holding aids, Lathe tools, Machine accessories and spares, Measuring aids, Milling tools, Mounting arbours, Resin guns, Sealant guns, Soldering irons, Staple guns, Tool holders, Tube and pipe benders.

- **Small tools** **page 23**
Arbors, Auger drills, Broaching cutters, Burrs, Chasers, Counterbores, Countersinks, Dies, Disposable cutters, Drills, End mills, Holesaws, Lathe tools, Lathe inserts, Milling cutters, Milling inserts, Mounted points, Reamers, Slot drill, Taps, Toolsteel bits, Wood bits.

- **Workshop equipment** **page 26**
Brushes, Car maintenance, Cleaning aids, Decorating equipment, Degreasers, First Aid equipment, Furniture fixings, Hardware, Hoses, Hydraulic equipment, Lifting equipment, Liquid handling aids, Paints, Pneumatic equipment, Protective agents, Racking, Rivetting tools, Securing aids, Security, Small machinery, Spillage control, Storage equipment, Testing equipment, Torches, Vices, Welding equipment.

- **Specialist tools and equipment** **page 30**
Asbestos removal, Cable handling equipment, Drainage tools, Gas equipment, Non sparking hand tools, Telecom equipment.

- **Contractors tools and equipment** **page 31**
Buckets, Compressors, Digging Spades, Electrical equipment, Generators, Lamps, Pumps, Surveying and Site measuring aids, Torches, Transformers, Trenching equipment, Vices, Welding equipment.

- **Fasteners and fixings** **page 33**
Bolts, Cable fixings, Hose fittings, Inserts, Masonry fixings, Nails, Nuts, Pins, Screws, Spirol pins, Staples, Washers.

- **Materials and parts** **page 35**
Bearings, Bushing, Ground flat stock, Hinges, Keysteel, Oilite, Plastic and Nylon rods and bars, Roller chains, Seals, Shim steel, Silver steel, Springs, Sprockets, V Belts.

BEAKER KAN BAN

The future of efficient consumable and tool stores control

We offer a KAN BAN supply and logistics control system, tailored to suit your company.

BEAKER KAN BAN is a supply service that keeps your in house stores stocked at pre determined levels. Kan Ban is a valuable aid to businesses which have a high turnover of stock, such as consumables, tools or standard components used in manufacturing or operating processes.

HOW DOES BEAKER KAN BAN WORK ?

Each KAN BAN system is designed to suit your unique needs. A stock list is pre-determined between Beaker KAN BAN and your company, identifying items which are to be supplied on a KAN BAN basis. Minimum stock quantities are decided upon, as well as prices which are fixed for a set term (usually 12 months). The price of a product includes all delivery, distribution and administrative costs.

Items are invoiced based on your monthly outgoings - any stock left on the shelf at the end of each month, is not invoiced but remains ready for use. (Kan Ban stock is the property of Beaker Tools until issued to your operatives).

HOW CAN MY COMPANY BENEFIT FROM BEAKER KAN BAN ?

As your store is kept stocked by an external supplier, this can reduce your costs on several levels:

- **Considerable reduction in the cost of stock** held in your stores. Only the Kan Ban stock items issued to your operatives / engineers are invoiced at the end of each month.
- **Improved efficiency** - the use of kan ban stores control is highly efficient. All consumables, tools and standard components required for day to day use by your operatives are in stock and ready to use, resulting in a reduction in the possibility of a 'high cost' operation being delayed because a 'low cost' item is not available.
- **Reduction of your purchasing / administration costs.**
- **Fixed Kan Ban item costs** for 12 months minimum. Beaker Kan Ban will provide an estimate of your potential cost savings after an initial assessment.
- **Quality of goods supplied** - Beaker Kan Ban will supply goods of the quality required by the customer. It is our policy to provide 'value for money' products.
- **Saving in store management costs** - the Kan Ban supplier will check current stock levels and replenish them where necessary. This releases your store managers to carry out other duties.
- **No more 'write off' or duplicated costs** by yourselves, as stock items not used are returned to the Kan ban supplier if no longer required.
- Individual stores usage figures are supplied with each invoice. Any discrepancies are cleared with individual store managers before the invoice is submitted.

Britten Engineering

Beaker Tools is wholly owned by Britten Engineering Ltd. - A precision sub contract machining company, whose work includes:

- CNC machining
- Sheet metal and aluminium welding
- Small fabricating
- Paint stoving
- BSI Accredited : BS EN ISO 9001 : 2000
